MATCHBOX COLLECTION
ACHIEVEMENT BOOSTER RULES

MID-SEASON

BY FRANCESCO TESTINI

During setup remove the 4 Base Game Overview cards from the game.

Assign the 4 Achievement Booster Overview cards to each corresponding Wooden Animal, which will give you the following small advantages depending on the actions you take:

**FROG
(GREEN):**

Only 1 card is required as a payment (instead of 2) everytime a card is placed between two already played Season cards or between a Season card and the Player card.

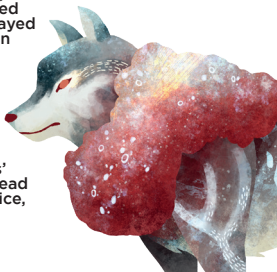

4 Overview cards

**SQUIRREL
(BROWN):**

During the 'Take 2 cards' action, take 3 cards instead of 2, keep 2 of your choice, and place 1 face-down at the topmost position of any Season deck.

RABBIT (PURPLE):

During the 'Take 1 face-up card' action, it is allowed to take 1 card from the Discard pile, or from anywhere in the Market (including overlapped cards).

OTTER (ORANGE):

Orange Season cards can be placed in any season, ignoring the color. If the ability is lost, the cards that have been placed during the ability, will keep the ability and stay where they are.
