FUKUSHUU

BY ANDREA SBRAGIA

Before shuffling the base game Boss cards, add the Fukushuu Boss card to the rest of the deck.

Follow the base game rules.

The Fukushuu: When the Fukushuu is defeated, immediately pause the game and place two random additional Enemies from the Enemy discard pile, placing them in the two rows opposite

to Fukushuu. If a Deflect token is present on the row where the new Enemy is placed, tuck the Enemy card right under the deflect token. If a row opposite to Fukushuu is empty, do not place the additional Enemy.
