GOLEM RUNES

BY FRANCESCO TESTINI

During setup, instead of shuffling the 4 Rune cards with the □ symbol, shuffle the 4 Rune cards with the △ symbol and deal 1 card to each player. Take the card to your hand. Add the remaining 2 Rune cards to the deck.

These new rune cards will request a combination of Golems that would have to be summoned during the game and will grant 8 total points (2 points for each summoned Golem from the requested card).

4 Special
Rune cards

If any of these special Rune cards is drafted during the game, you may use the card as a resource and additionally you will create Gem dust for the end game scoring, unless the card is discarded during a Golem summoning.

Example: The rune will grant 8 victory points if the player manages to summon 2  Golems, 1  Golem, 1  Golem.
