ENCORE RULES

ELIXIR

BY GAETANO CAVALLARO

During setup, shuffle the 3 Elixir cards showing an icon at the bottom, and place them near the deck to form a row. Place the Elixir card without icons at the right-most position of the row.

Place the Mixture tokens as shown in the picture below.

4 Elixir cards

If you close another player's Active Shelf, you receive 1 Mixture token from the left-most position of the row and the other player takes 1 Library card from the Library deck as in the base game rules.

If the last Mixture token of an Elixir card is taken, the other player takes 1 Library card from the Library deck along with the Elixir card that has no more Mixture tokens on it.

Players that obtain Elixir cards can use them at any time during their turn by flipping them over. Elixir cards can be activated only once during the game.

The player will use a Shiny Mixture token as a Golden Mixture token and place it in any of their Shelves.

The player will remove a Mixture token from any of their Shelves, to place it anywhere by following the base game rules.

The player will immediately draw two Library cards from the Library deck.
